2017 HORTICULTURE DISPLAY GARDEN EVENT

Top Performing Perennials: A Blend of New with Tried and True

With the constant influx of new perennials and the attention focused on them, we often neglect some of the “tried and true” plants. This session will include a bit of both, but the focus will be on perennials that have had a chance to prove their reliability in our northern landscapes (for Zones 3 & 4). Culture, care, and varietal selection will also be discussed.

Presented by Mike Heger, one of the leading experts on gardening in cold climates and former owner of Ambergate Gardens. Having authored several books, articles, and various publications, Mike has extensive plant knowledge for MN gardeners.

Kinship

Raising Up Stevens County

IS IT RIGHT FOR YOUR CHILD?

This January we celebrated our first year as an operating youth mentoring program. More importantly, we celebrated with a few of our youth mentees and mentor matches their 1 year anniversary together!

We asked families what mentoring looked like in "real life" for them. Here is what they had to say...

Jeanne and Saqqara Celebrated their 1 year match anniversary with the Kinship program in January 2017. They have enjoyed spending time together visiting the library, playing games, attending community events, visiting with one another and playing with Jeanne's dogs and cats! Reflecting on the past year, Saqqara's mom reports Saqqara seems happier, listens better, gets along better with friends, has a better attitude about school, and feels better about herself!

Zavier and his mentors, Lisa and Bryan, Celebrated their 1 year match anniversary with the Kinship program in January 2017. They have enjoyed spending time together ice fishing, going out to eat, visit their family and exploring the farm, attending community events, and visiting with one another! Reflecting on the past year, Zavier's mom reports Zavier seems happier, works harder on homework, seems better behaved at home, listens better, and feels better about himself.

Travis and his mentors, Britney and Jared, Celebrated their 1 year match anniversary with the Kinship program in December 2016. They have enjoyed spending their time together going fishing, playing games, attending community events, bowling, kayaking, and hiking. Reflecting on the past year, Travis's mom reports Travis seems happier, gets along better with friends, has a better attitude about school, seems more responsible, seems better behaved at home, and feels better about himself!

Tabitha and Betty Celebrated their 1 year match anniversary with the Kinship program in December 2016. They have enjoyed spending time together going shopping and out to eat, attending community events, going to sporting activities! Reflecting on the past year, Tabitha's mom reports Tabitha seems happier, gets along better with friends, has a better attitude about school, seems more responsible, seems better behaved at home, and feels better about herself!

**Regional
fitness
Center**

a campus/community
partnership

Dear Stevens County Community Member,

The Regional Fitness Center (RFC) has been a community resource for more than 15 years. With our mission *"To provide quality recreational and fitness opportunities for individuals of all ages and physical abilities"*; we currently serve about 200 people per day and over 110,000 people annually. We offer various group fitness classes including aqua fitness, cardio, and circuit training, with about 20,000 participants per year. We also provide various services such as personal training and swimming lessons.

As the RFC approaches its 20th year of operations in 2019, we are considering creating a strategic master plan for the next 20 years. The plan may include the renovation and expansion of the facility spaces with additional equipment and services. Some possible changes to the RFC have been identified by the RFC partners – City of Morris, Stevens County Board, Morris Area Schools, and UMM. Changes include adding group fitness spaces so that the participants could enjoy their fitness classes more comfortably; additional equipment such as rehabilitation equipment could be provided to accommodate different needs of the community; and more services such as nutritional services or wellness services could be offered to better contribute to the health of the community.

To continue to be a valuable community resource, providing quality facility spaces, programs, and services, the RFC would like to know your recreation and fitness priorities as well as your thoughts on what changes and improvements need to be made to the RFC for a healthy Stevens County. This is a great opportunity for you to let us know what you want the RFC to become in the future. We are looking forward to hearing from both the RFC members and non-members.

Confidentiality:

Responses from this survey will be kept private. We will publish only summary results in any reports and no information will be included which will identify individual respondents. All responses will be stored securely and only the lead researcher will have access to these records.

Contact and Questions:

If you have any questions about the survey, the overall project, or its sponsors; please feel free to contact the RFC director below. If you have any questions or concerns regarding this study and would like to talk to someone other than the RFC director, you are encouraged to contact the Research Subjects' Advocate Line, D528 Mayo, 420 Delaware St. Southeast, Minneapolis, Minnesota 55455; (612) 625-1650.
