# CERTIFIED HAND THERAPIST

**BST Morris & Graceville**

**Big Stone Therapies, Inc. would like to recognize Chelsea McKinney, Occupational Therapist who has obtained the prestigious certification in Hand Therapy, making her the only Certified Hand Therapist (CHT) in the region.**

## **More about the CHT credential:**

Certified Hand Therapists are occupational therapists or physical therapists that have: 1) completed over 4,000 hours of direct patient care in upper extremity conditions and 2) have passed a comprehensive examination of advanced clinical skills and theory related to the upper quarter. CHT's are required to recertify every five years in order to ensure that the high standard of practice is maintained.

## **Benefits of working with a CHT:**

The function of one's hands and arms are so critical that any loss of ability is surely to make an impact on one's life. The CHT credential ensures the patient and public that the highest level of competency in the profession has been achieved and that the most up to date information and services are being provided. The Hand Therapy Certification Commission says this: "CHTs are therapists who demonstrate a personal dedication to the profession of hand therapy and a desire for advanced competency; they bring to their work a commitment and dedication to reach and maintain the highest standards in their profession. The CHT credential is recognized by many professional organizations as a benchmark for excellence in advanced specialty credentialing in health care."

More information about the Hand Therapy Certification Commission and the CHT credential can be found at [www.htcc.org](http://www.htcc.org)
