

Minnesota has made progress on slowing the spread of COVID-19 because of adherence to our Stay at Home order, and we need to continue social distancing practices to save lives. **The Stay at Home order has been extended until May 18, 2020.**

Executive Order 20-48 allows workers in non-customer facing industrial and office-based businesses who cannot work from home to return to work. EO 20-48 further allows any customer-facing retail business that sells goods to engage in curbside or outside pick-up and delivery, as long as customers do not enter the business premises.

Further guidance on what businesses are allowed to return to work under EO 20-48.

These are the first steps in the gradual but essential process of returning Minnesotans to work. We must continue to protect public health through this process, and are considering a number of factors when allowing business to reopen, including sustained control of the rate of new infections and hospitalizations, enhanced ability to test and trace, sufficient health care capacity to handle resurgence, and best practices for social distancing in the workplace.

Safely returning all Minnesotans to work will be an ongoing process and input from businesses and labor organizations continues to be a critical component of our planning. Input from workers and community members is also essential in making sure we do this right

You can also visit <https://mn.gov/deed/> for more info.

Restaurants/Café/Dining

Visit online for menu and ordering details - www.foe620.org

Health Care

More than a month has passed since the stay-at-home order went into effect. This has been valuable time for the state to prepare for Minnesota's surge in COVID-19 patients. Over the past couple of weeks we have also seen the state government gradually bring back more of the economy although with modifications from their normal operations. **SCMC** has also taken this time to adequately prepare for the possibility of caring for COVID-19 patients as well as make modifications to our normal practices in an effort to minimize the risk of spreading the coronavirus. Actions we have taken over these past several weeks include:

1. Screening everyone at the entrance for fever and symptoms of COVID-19. A new screening booth was recently built to move this screening outside the main entrance.
2. We re-designed part of the clinic space to create a respiratory area of the clinic which is separate from the rest of the clinic and urgent care. This respiratory area of clinic is open every day of the week with the same hours as urgent care.
3. We continue to build our supply of PPE to ensure that we can continue to adequately protect our staff when evaluating and treating patients with symptoms of COVID-19. The community has been a great partner in this effort with homemade masks and gowns.
4. We are also asking everybody within the building to wear a mask as "source control" given that we now know that COVID-19 has significant asymptomatic spread. If you have your own mask at home we asked that you wear it when you are coming to the clinic or hospital.
5. We have also set up an area outside of the building where lab tests can be drawn to reduce the number of people needing to enter the building. The site is by appointment which can be arranged by the provider ordering your lab tests.
6. Video visits are now available for certain medical concerns that can be adequately addressed without an in-person office visit for individuals that are signed up for MyChart.
7. We continue to limit visitors. We understand some patients need to have a caregiver/friend accompany them to an appointment but we ask that this is limited to 1 individual.
8. Our testing capabilities for the coronavirus have improved. We have the ability to test all symptomatic patients at this time. This will increase our ability to detect active COVID-19 infection in the community.

Here at SCMC we feel that the changes we have made over the past several weeks will allow us to move forward providing care for our patients in as safe an environment as possible.

Changes effective May 4 include:

1. Primary care providers will begin having regular weekly schedules although on a reduced number of days each week. We are staggering the days that we are in clinic to reduce the number of patients coming into the building on any given day. If demand for appointments is high we will increase the number of days each provider is in clinic.
2. Specialists such as General Surgery, Dermatology, Podiatry, Optometry, and Orthopedics will also open up scheduled appointment times as demand dictates.
3. We are reserving appointments before 10 am for patients 65 and older. This will allow this group of patients which are at higher risk from COVID-19 to be cared for in the clinic before the rest of the community comes into the building.

We understand that some people will still be concerned about going out in public while the pandemic is ongoing and providers will continue to work with these patients as best we can utilizing the tools that we have available. However, with an uncertain timeframe for when the pandemic will end, SCMC will continue to adapt and adjust as needed so we can provide for all medical needs while remaining vigilant to the threat of COVID-19. Thank you to the community for your support and understanding during these difficult times.

Accelerated Chiropractic open for business and operations. Please call 585-7246 for an appointment.

The **Morris Dental Clinic** is closed until further notice.

During the past 8 weeks we have been closed except for urgent and emergency dental care. During this time, we have also been preparing for when we would be allowed to open and staying up to date with new recommendations. The **Dental Depot** has always strictly followed Infection Control Guidelines from the American Dental Association, CDC and OSHA. We are making adjustments based on current guidelines for increased infection control and working to make your future experience safe and pleasant. We will be open on May 11th, but not at full capacity, and will begin to build our capacity over the next few weeks as we obtain enough Personal Protective Equipment to keep our staff and patients safe. The Dental Depot is here to serve you and we are excited to see our patients again soon. We look forward to seeing you at your next visit!"

As of March 12, 2020, **Morris Health Services** which includes. West Wind Village, Skyview Court, and Skyview Plaza are taking precautions to keep our residents safe from COVID-19. Per CDC and MDH guidelines, we are making restrictions immediately to prevent the spread of this illness and to protect our residents. Effective immediately, visitors are NOT permitted at West Wind Village or Skyview Court and Plaza ,unless there are extenuating circumstances such as hospice cases. If this is the case please, call us at 320-589-1133.

Big Stone Chiropractic is open during normal business hours.

The **Prairie Ridge Hospital and Health Services Morris Clinic** is open regular hours. Outpatient visits and services are now limited to urgent and semi-urgent care. Patients who think they may have COVID-19 (symptoms include fever, cough and shortness of breath are asked to call us before coming to our clinic. Calling first for a phone consult allows us to gather specific patient health history. After the phone screening, patients will be given guidance on whether to manage at home following home management strategies, or if appropriate how to be tested for the virus. The phone number for Prairie Ridge Hospital & Health Services Morris Clinic is 320-589-4008. Please be aware that all patients will be screened prior to entering the clinic as well and anyone with respiratory symptoms will be asked to wear a facemask and may be asked to complete further screening with a staff nurse.

Midwest Family Eye Care is open their regular hours. Starting Thursday May 7 they will begin to see patients. Please call to schedule your appointment.

Banking/Accounting/Tax/Investments

Due to health concerns for our clients and staff, **Morris and Associates** has implemented no face to face tax appointments and no in office pick up and signing of returns.
