2019 HORTICULTURE DISPLAY GARDEN EVENT

What's Happening to our Evergreen Trees?

While we all love evergreens for their year-round beauty and value as windbreaks, they really do not return the love.

Western Minnesota is not the ideal environment for many evergreens and they show it! This presentation will cover the major challenges with growing arborvitae, douglas-firs, junipers, pines, and spruce in our climate and soils and which ones are best up to the challenge.

Presented by John Ball, Professor of Forestry at South Dakota State University where he also serves as the Extension Forestry Specialist and the state's Forest Health Specialist.

Wed, October 16 12 - 1 pm

Held in AgCountry Auditorium at the West Central Research and Outreach Center

46352 State Hwy 329, Morris, MN

TELESTROKE >>

Improving community health with enhanced care for stroke patients

- 1 AVAILABLE 24/7
- 2 CONNECT WITH A NEUROLOGIST IN REAL TIME
- 3 QUICK TREATMENT= LESS BRAIN DAMAGE

WHAT IS TELESTROKE

Telestroke uses video conferencing technology to allow a stroke neurologist from St. Cloud Hospital Stroke Center to evaluate a patient in another hospital, view diagnostic scans and recommend treatment.

Through Telestroke, interventions such as intravenous tissue plasminogen activator (IV tPA) medication can quickly be administered to break up clots. It is considered the first line of treatment for acute ischemic stroke but it must be administered within a 4 ½ hour window from the onset of symptoms to work best. IV tPA is the only U.S. Food and Drug Administration-approved drug for the treatment of acute ischemic strokes.

Telestroke services, available 24/7, saves valuable time and brain which allows patients to recover quicker and suffer less disability.

Stevens Community Medical Center now provides Telestroke services to patients thanks to a partnership with St. Cloud Hospital Stroke Center.

SCMC WILL BE ABLE TO:

- > CONNECT WITH A NEUROLOGIST IN REAL TIME
- > IDENTIFY CEREBROVASCULAR EMERGENCIES
- > DESCRIBE BEST MEDICAL MANAGEMENT FOR STROKE PATIENTS
